Sonesse® – The range of quiet motors

DESIGNED FOR ACOUSTIC COMFORT, DESIGNED BY SOMFY

Silence: a priority in your markets

Both in the office and at home, **silence is now a key factor for well-being**. Somfy is committed to making silence the standard in your markets. With the Sonesse® range, **Somfy makes acoustic performance an added value solution**.

Innovation and sound control

The Sonesse® range of high performance motors and accessories has been developed by Somfy's global team of engineers and technicians using state-of-the-art research and development tools. In total, Somfy has registered **six patents** for the Sonesse® range, with Sonesse® 30 receiving a Window Covering Manufacturers Association (WCMA) Product Innovation Award. The Sonesse® line of motors offers unparalleled quality and compatibility for a wide range of indoor commercial and residential applications.

Somfy: the creator of intelligent and sustainable movement

With 40 years experience providing motorization solutions for building openings, Somfy has developed an unrivalled selection of motors, controls, and accessories. Somfy is now a designer and world leader of Home Motion: intelligent and sustainable movement in residential and commercial buildings.

Motor Dimensions	Diameter: 28 mm / Length: 408 mm	Diameter: 38 mm / Length: from 475.5 to 548.5 mm			Diameter: 47 mm / Length: from 723.5 to 796 mm
Technology	  	 			    
Standards		 			 

*Sound pressure at a distance of 1 m from the carrier product at nominal torque

Make silence the new standard in your offer

The brake, rotor, gear box and accessories are all **specially designed to absorb sources of noise.**

The new Sonesse® 40 offers a special range of accessories developed with industry partners Rollease® and Acmeda™, creating an offer that provides maximum acoustic comfort, from design to installation.

Rollease® crown and drive kit

Acmeda™ crown and drive set

Somfy crown and drives for cylindrical and octagonal tubes.

Somfy reliability

Sonesse® motors and accessories comply with international safety standards.

All Somfy products are tested during production.

Somfy guarantees its products for 5 years for its installer and manufacturer clients.

Sonesse® – The range of quiet motors

DESIGNED FOR SUCCESSFUL BUSINESS

Sonesse®: an offer designed for dealers

- **Offer quiet, customized, value-added indoor window coverings** that set you apart from the competition and help you to gain new business.
- **Receive assistance at every stage of the installation process** to ensure that your ultra-quiet motorized products offer the very best performance.
- **Optimize your productivity.** Sonesse® motors are so easy to integrate that you can optimize productivity without changing assembly methods.

Somfy: a long-term professional partnership

Somfy is committed to building long-term partnerships to ensure that our customers benefit from the very latest advances in acoustic performance for indoor motorized products.

In order to meet the challenge of silence, Somfy created a network of partners and experts specializing in accessories and fabrication that maximize the noise reduction benefits of the Sonesse® range.

Thanks to these partnerships, the acoustic performance of your products will remain at the cutting edge of the market.

DESIGNED FOR ALL APPLICATIONS

Bring your creation to life

Sonesse® is available with a wide range of torques and speeds to motorize all indoor applications, including the most demanding in terms of aesthetics, comfort, and... silence.

Sonesse® – The range of quiet motors

DESIGNED FOR ALL PROJECTS

People: our number one priority

Silence, simplicity, privacy, comfort, natural light quality and sustainable performance are the driving forces behind our product development processes.

That's why the Sonesse® range offers **an unrivaled choice of motors, accessories and automated devices** designed with well-being and the environment in mind.

■ SOLUTION TO COMMERCIAL BUILDING REQUIREMENTS

Creating design-inspired, sustainable architecture with bioclimatic façades

Sonesse® motors are compatible with Somfy's bioclimatic façade management systems.

Benefits:

- Improved thermal and visual comfort
- Energy savings
- Reduced maintenance costs
- Infinite architectural possibilities

They act as automatic, intelligent filters that adjust the amount of natural light without affecting noise levels.

■ SOLUTION TO RESIDENTIAL REQUIREMENTS

Creating a living home that meets user needs

Sonesse® solutions are easy to install and are compatible with home automation and centralized management systems. Sonesse® motors are easy to conceal and won't affect décor. Somfy offers a wide selection of controls for Sonesse® motors to promote the long-term benefits of: **silence, privacy, control, comfort and well-being.**

- Compatible with the full range of RTS controls and accessories, including:

Telis 1 RTS

Controls one motorized product or one group of motorized products.

EXCLUSIVE
TO SOMFY

Telis 1 Modulis RTS

Controls one motorized product or one group of motorized products. Central thumbwheel for accurate and intuitive adjustment of the slat tilt.

Telis 16 RTS & Telis 6 Chronis

The Telis 16 can control either 16 individual motorized products or 16 groups of motorized products, perfect for whole home control. The Telis 6 Chronis can control up to 6 individual motorized products or 6 groups of motorized products and offers a programmable timer for automated control.

Decoflex Wirefree RTS Wall Switches & Table Top Accessory

Wall-mounted or table top control options with personalized buttons available.

- Compatible with home automation systems

Universal RTS Interface (URTSI)

To control all Radio Technology Somfy® applications via a centralized control system.

The entire Sonesse® range works seamlessly with TaHoma™ – Somfy's total home automation solution. Using Z-Wave®, an interoperable, 2-way RF mesh networking technology, TaHoma enables users to control, schedule, and monitor their Somfy motorized products, lights, and thermostats.

Use the Z-Wave to RTS Interface (ZRTSI) or Z-Wave to Digital Motor Interface (ZDMI) to translate TaHoma's Z-Wave commands for Sonesse® RTS and digital motors.

ZRTSI

ZDMI

Z-Wave® is a trademark of Zensys Inc. and/or its subsidiaries.
