Automation • Motorization Residential

DC Window Automation is Chicagoland's leading source and supplier for motorized and automated custom draperies, shades and blinds. Our staff of over 10 experienced professionals provide services including consultation, design and installation. We are proud to be recognized experts in the newest technologies in window treatment motorization and automation.

How The Process Works

1. Motorized projects, large or small, will require an on-site visit by one of our experienced representatives who can properly assess your particular design and installation requirements. Call to schedule your free in-home appointment, day or evening.
2. Our service includes color consultation, fabric selection, style and design suggestions. Our experienced designers are committed to help make your project a huge success.
3. We will follow through with you to clarify any selection, measuring or installation issues and contacting appropriate electricians, builders, carpenters or construction contractors.
4. Your guarantee of the final product and installation will be confirmed once your order deposit has been received.
